

LED Projects Portfolio

Display technology that creates inspiring experiences

Indoor, outdoor, transparent and flexible LED, rental, projectors and control — from King Salman Science Oasis and Qiddiya City to LEAP and MBC.

FAST VISION

Riyadh · Saudi Arabia

MAKE YOUR BUSINESS LIGHT UP

WHY FAST VISION FOR LED

Experience you can see on the Kingdom's biggest screens

We deliver LED projects end to end: site survey, steel structure design and fabrication, installation, colour and brightness calibration, control and content management, operator training, and spare parts on handover.

715+ m²
of LED documented across just six of our projects

328.5 m²
largest single rental install — LEAP exhibition

155 branches
adopted our specification for Salam Mobile

1,310 cabinets
in one project — King Salman Science Oasis

We work with Hikvision · Samsung (authorised distributor) · NovaStar · Crestron

What sets our delivery apart

- In-house team from site survey to handover
- Steel structures we design and fabricate for every site
- Uniform colour and brightness calibration on every cabinet
- Spare parts handed over, with support after go-live
- Delivery to fixed opening and event dates

OUR SOLUTIONS

Every kind of LED and visual display — under one roof

FULL LED SPECTRUM

Indoor Fine-Pitch LED 01

High resolution from P1.8 for close viewing in halls, showrooms and offices.

Our work: SDAIA, MBC, Alkhunaizan

Outdoor LED 02

High brightness, built for heat and dust, on custom-designed steel structures.

Our work: Al Qarya Al Shaabia, drive-thru restaurant

Transparent LED 03

Turns glass façades into displays without blocking light or views.

Our work: Qiddiya City

Flexible & Curved LED 04

Cylindrical columns, curved and non-flat surfaces with dedicated image processing.

Our work: Lounge Mood

Rental & Events 05

Supply, operation and de-rig to fixed dates, with a crew on site throughout.

Our work: LEAP — 328.5 m²

Broadcast & Stage 06

Backdrops shot directly on camera, and main stage screens with side displays.

Our work: MBC, King Salman Science Oasis stage

Projectors & Projection Mapping 07

Supply and upgrade of projector systems for domes, objects and façades.

Our work: King Salman Science Oasis dome

Video Walls & Digital Signage 08

LCD video walls, kiosks, hospitality displays and signage in every size.

Our work: voco Riyadh, Salam Mobile, TOTO

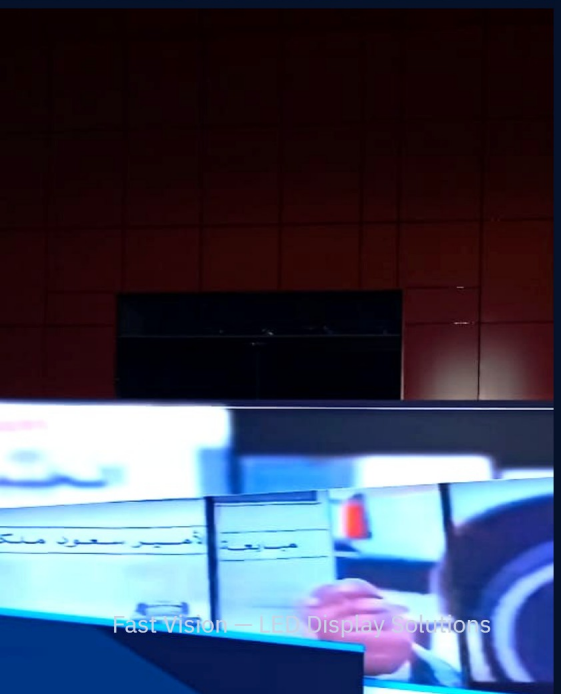

Control & CMS 09

NovaStar processing, MagicINFO, NaVori and Crestron — every screen from one point.

Our work: Qiddiya control room, 155 Salam Mobile branches

Featured project

PROJECT 01

King Salman Science Oasis — SDAIA

Client: Saudi Data & AI Authority (SDAIA) · AI Oasis, Riyadh

A complete indoor LED solution of 1,310 Hikvision cabinets across two pixel pitches, covering walls, ceilings and the main stage screen.

1,310
LED cabinets

89.7 m²
across 3 main screens

Main screen	**67.58 m²**
Right · left screens	**11.06 m² · 11.06 m²**
P2.5 — DS-D4025CS-1F	**1,090 cabinets**
P1.8 — DS-D4418FI-CKF	**220 cabinets**
Timeline	**2 – 4 weeks**
Scope	**Supply · installation · calibration · warranty**
Projector	**Dome projection system upgrade**

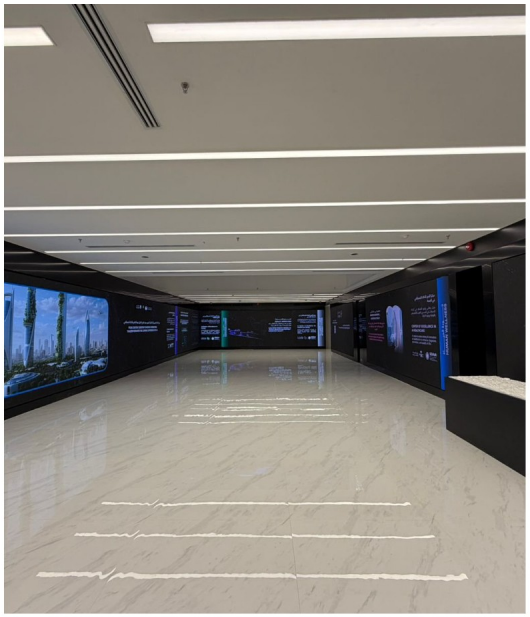

- P1.8 for close-viewing zones and P2.5 for wider surfaces, balancing clarity and cost.
- Phased installation and calibration for uniform colour across every cabinet.

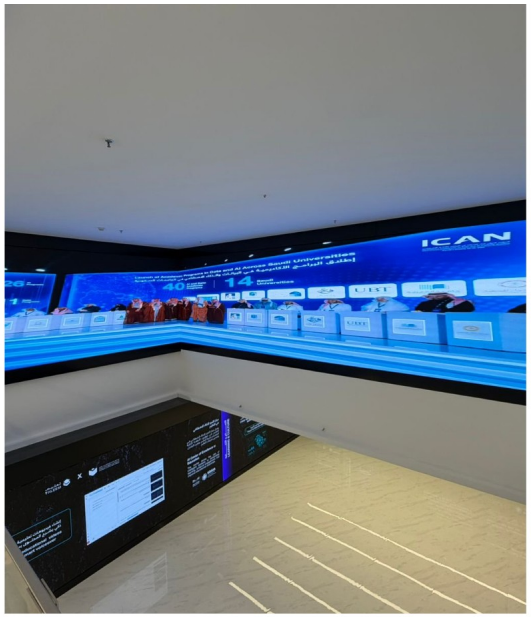

KING SALMAN SCIENCE OASIS — SDAIA

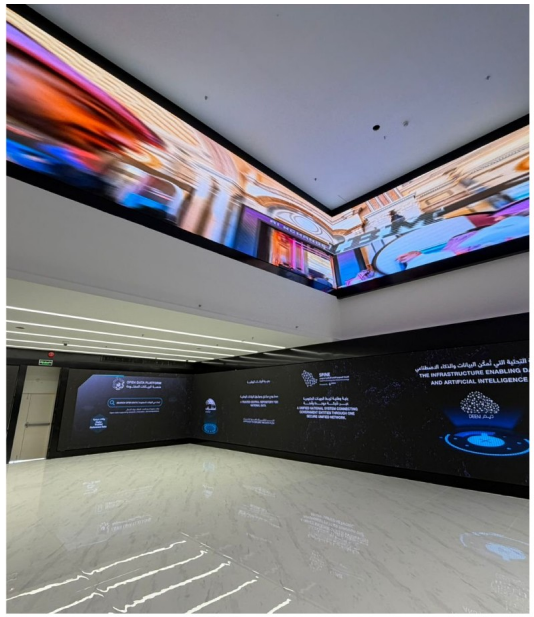

LED walls and ceilings that tell the story of AI

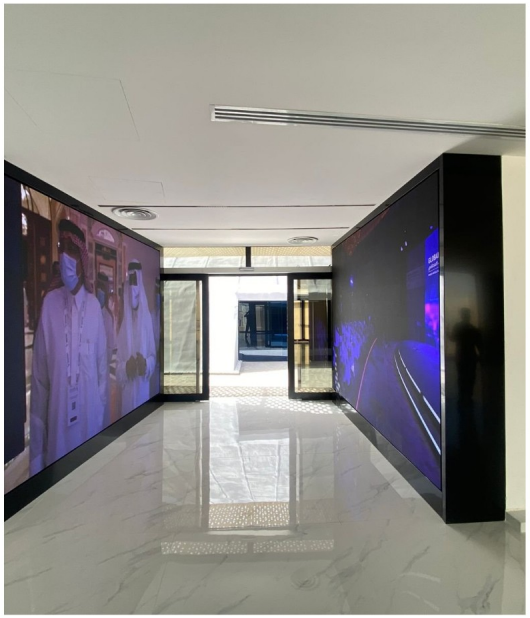

PROJECT 01 · GALLERY

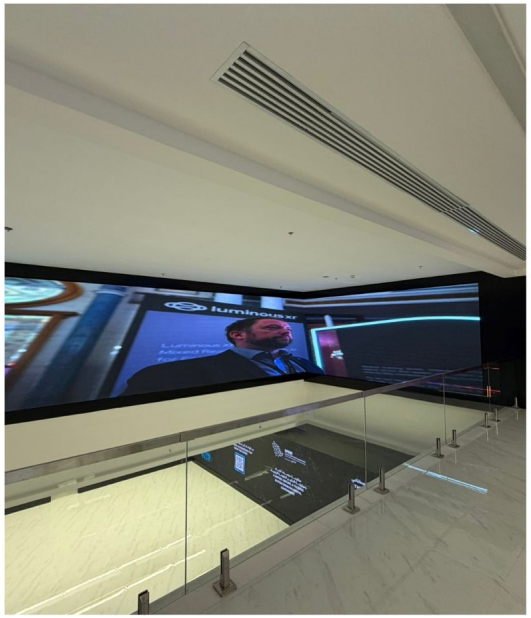

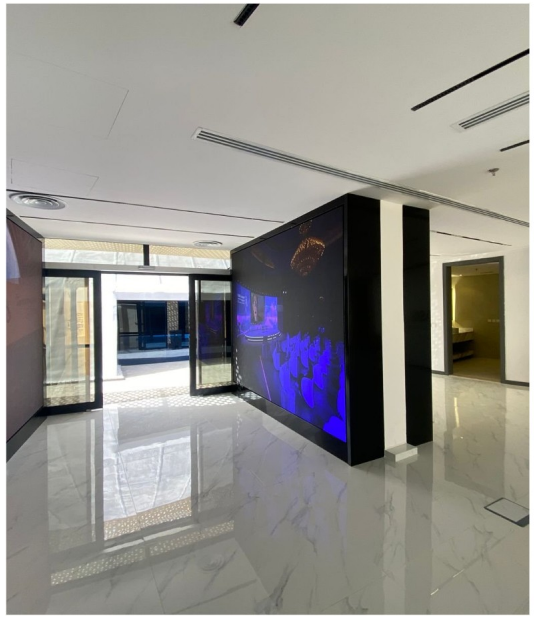

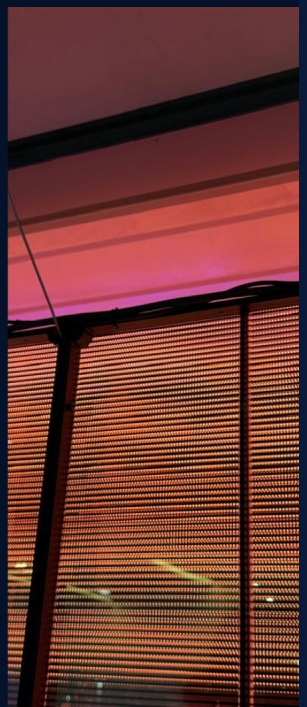

Featured project

PROJECT 02

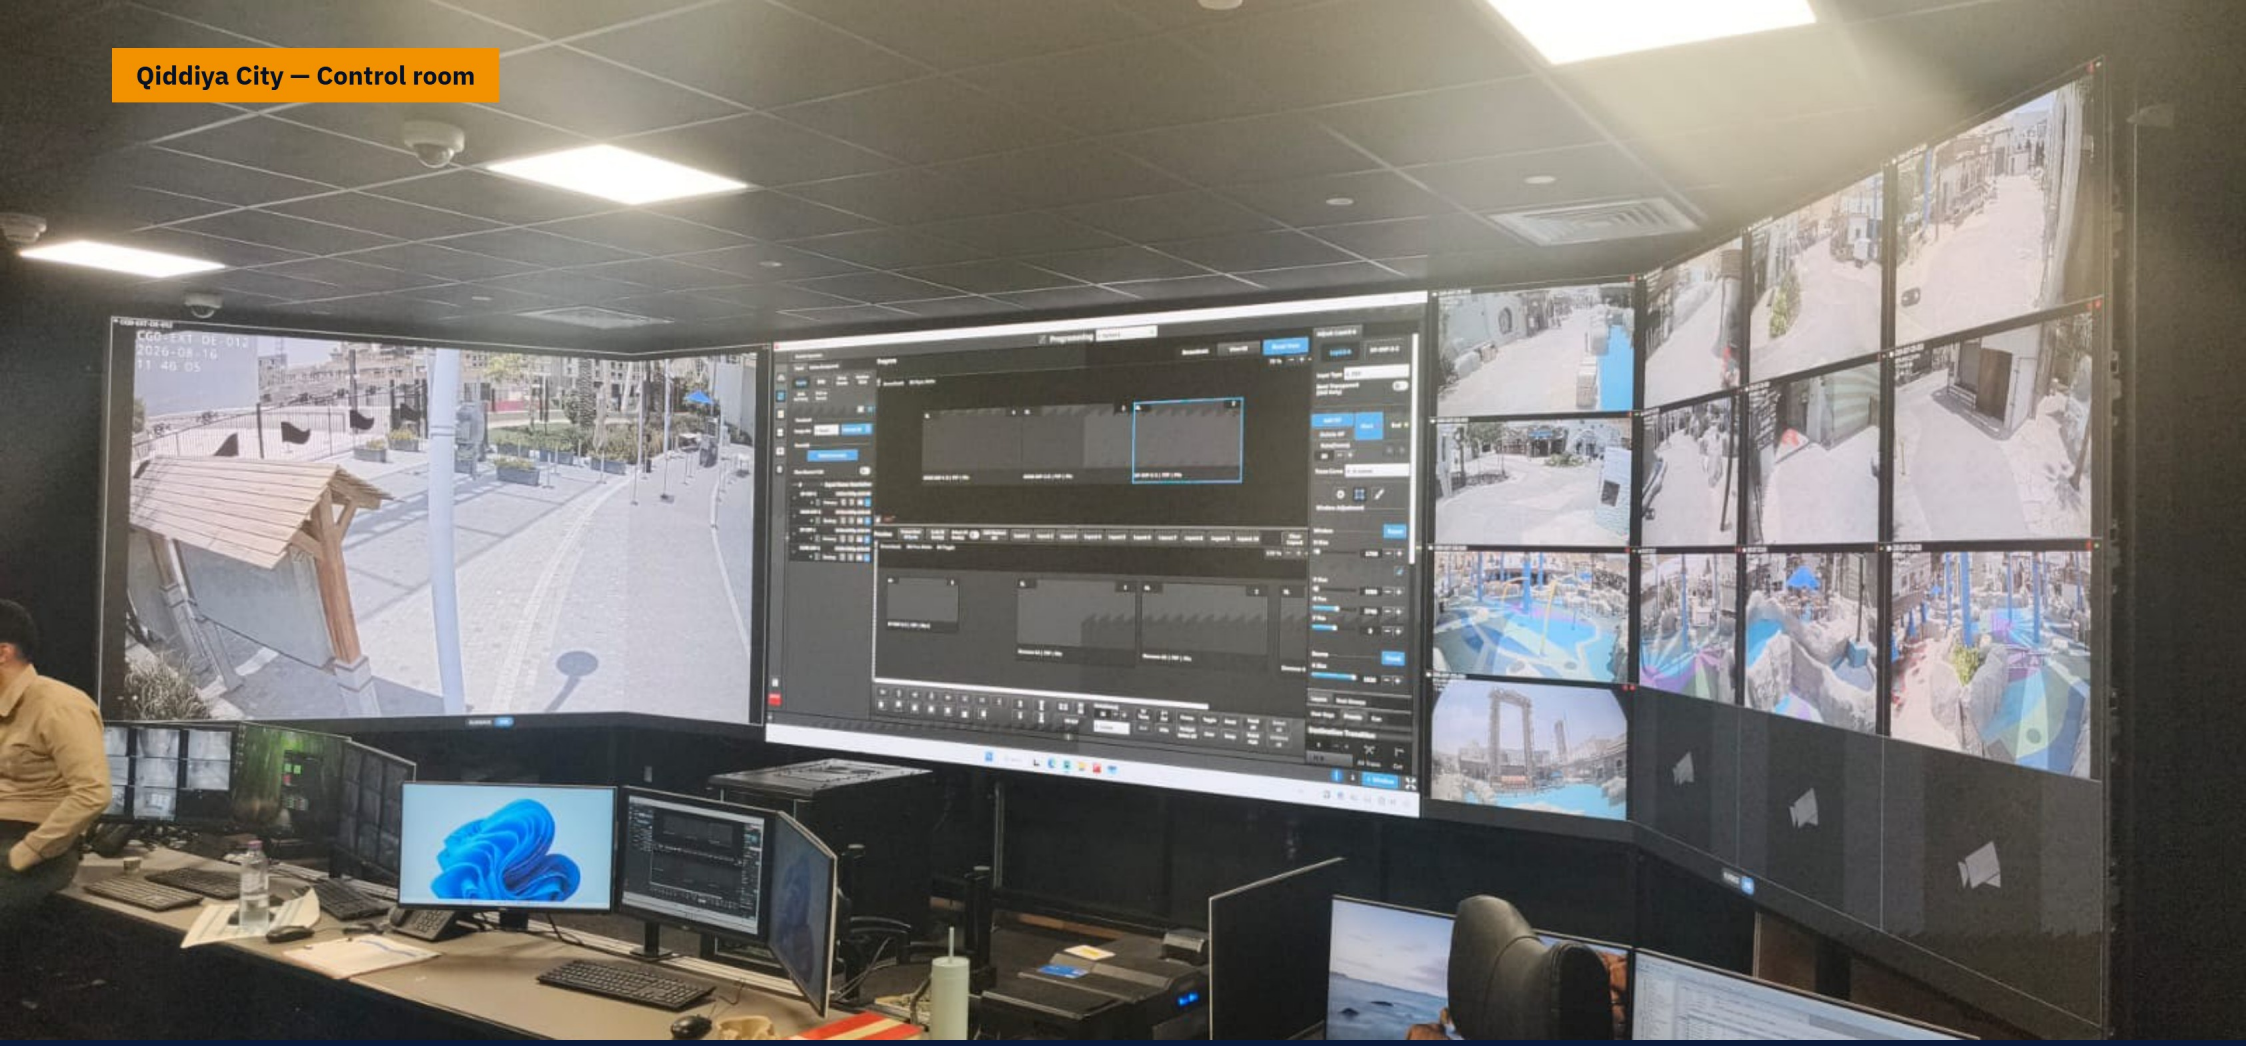

Qiddiya City

Transparent LED façades · Qiddiya City, Riyadh

Transparent LED screens fitted behind glass façades, turning the storefront into a display for passers-by while keeping the view open from inside.

Screen type	**Transparent LED**
Installation	**Suspended frames behind the glass**

- Glass façades turned into screens showing Qiddiya City content in Arabic and English.
- The screen blocks neither daylight nor the view from inside.
- Delivered across multiple façades, from outdoor walkways to indoor lounges.
- Plus the site’s control room — next page.

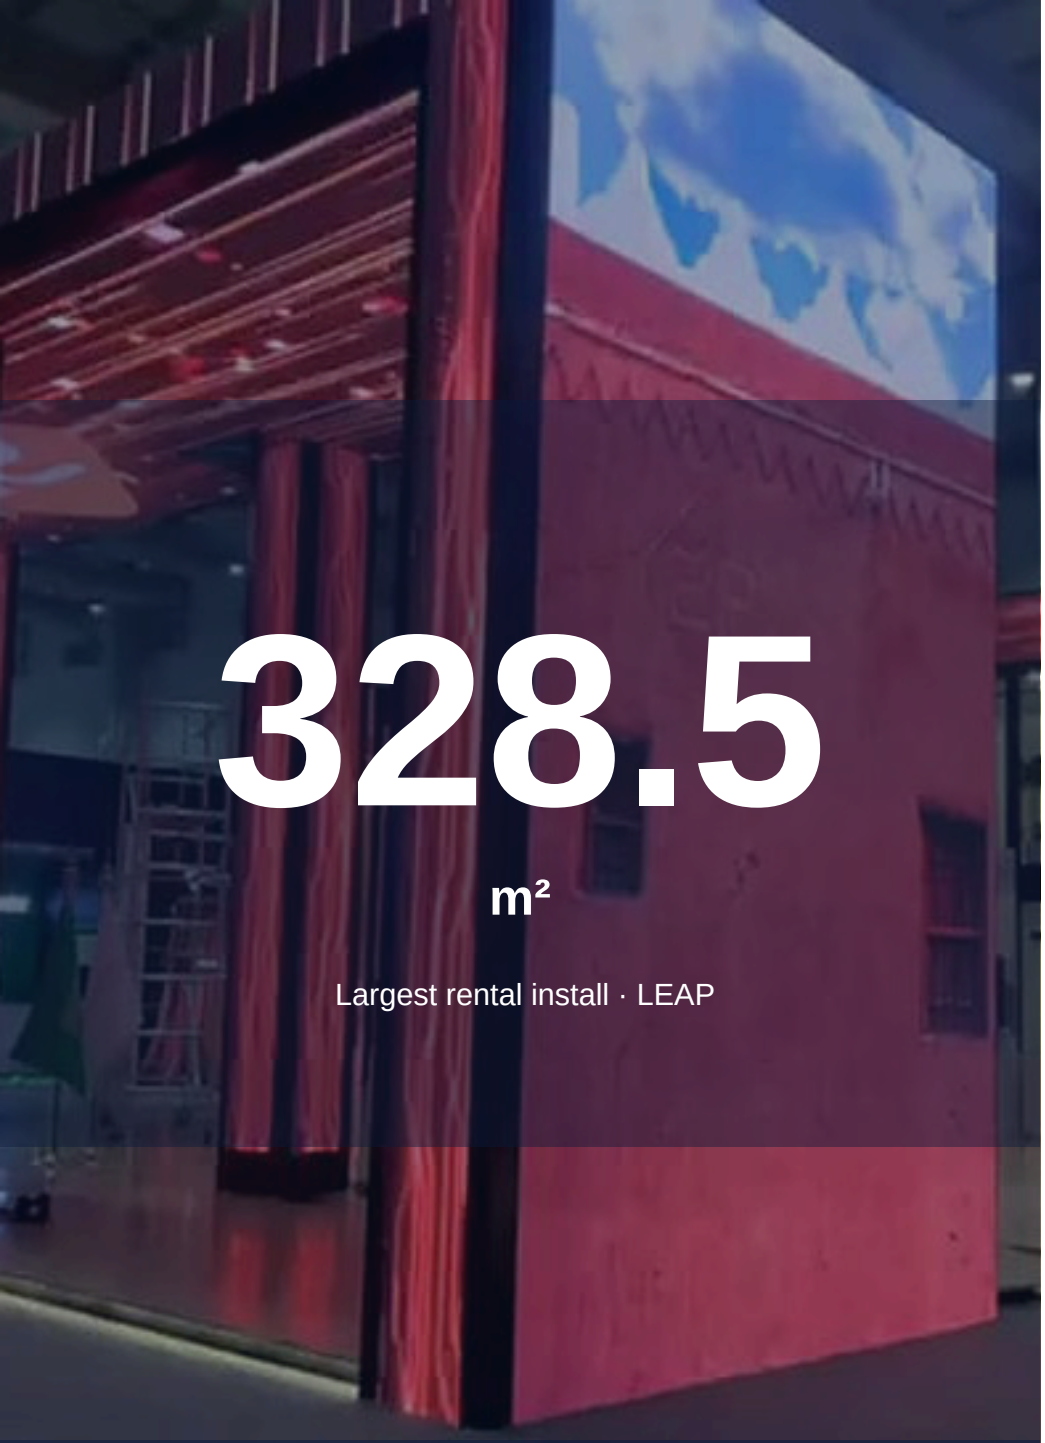

Qiddiya City — Control room

PROJECT 02 · CONTROL ROOM

Qiddiya City control & monitoring room

A multi-surface video wall wrapped around the operator desks, showing site cameras and operating interfaces at the same time.

- Display wall across several angled surfaces covering the operator’s field of view.
- Surveillance cameras and operating screens side by side.
- Signal routing and window layouts through a video processor.
- Complements the transparent LED façades on the same site.

EXHIBITIONS & EVENTS — RENTAL

PROJECT 03

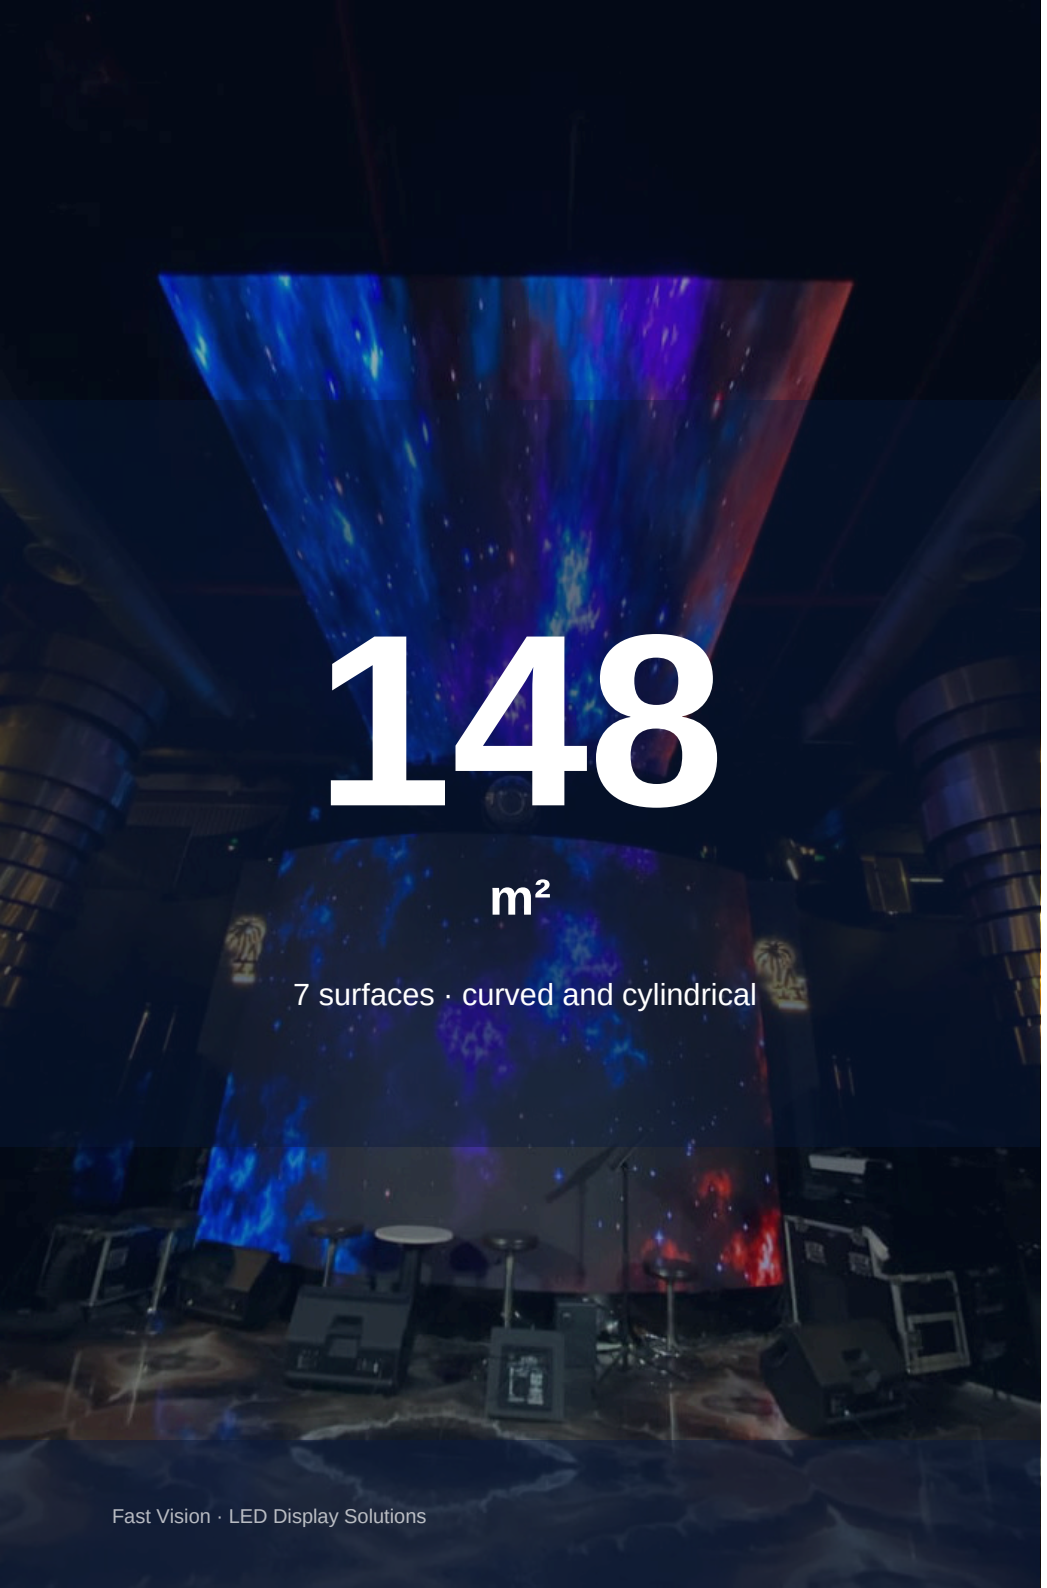

328.5 m² of rental LED for a stand at LEAP

LED screen rental · Riyadh

Total area	**328.5 m²**
Display systems	**112.5 m² façade · main screens · 16 columns · 2 panels**
Cabinets	**Hikvision DS-D4226RI-CQF**
Controllers	**25 × DS-D42V04-N**
Scope	**Supply · install · operate · de-rig**

The result

- The stand was lit from opening hour to close, with every surface tested before doors opened.
- Colour and brightness matched across all four systems so they read as one.
- Crew on site for the whole show; hall handed back empty and on time.

ENTERTAINMENT & HOSPITALITY

PROJECT 04

148 m² of LED across seven surfaces for Lounge Mood

Indoor LED video wall system · Olaya, Riyadh

Total area	**148 m² · 7 display surfaces**
Pixel pitch	**P4.0 bands · P2.5 all other surfaces**
Modules	**3,147**
Display bands	**2 × 21.76 m · 5440×240 px**
Cylindrical columns	**2 × 5.44 m high**
Content management	**Orchestra 7 · 7 controllers**

The result

- A programmable visual identity whose colours change with every scene.
- Content synchronised across all seven surfaces from one point.
- 5.4% module spares on site for instant replacement without downtime.

RETAIL & SHOWROOMS

PROJECT 05

A 30-metre indoor LED screen for Alkhunaizan

Alkhunaizan showroom · Laban branch, Riyadh

Dimensions	**30.00 × 2.50 m**
Area	**75 m²**
Visibility	**From inside the showroom and from the street**
Format	**Panoramic banner, ratio beyond 12:1**
Structure	**Custom-designed and fabricated steel**
Scope	**Survey · fabrication · install · calibration**

The result

- A 30 m digital band with a flat face and even colour along its full length.
- A static wall turned into advertising space that updates without reprinting.
- Installed above a live sales floor with merchandise protected.

BROADCAST & STUDIOS

PROJECT 06

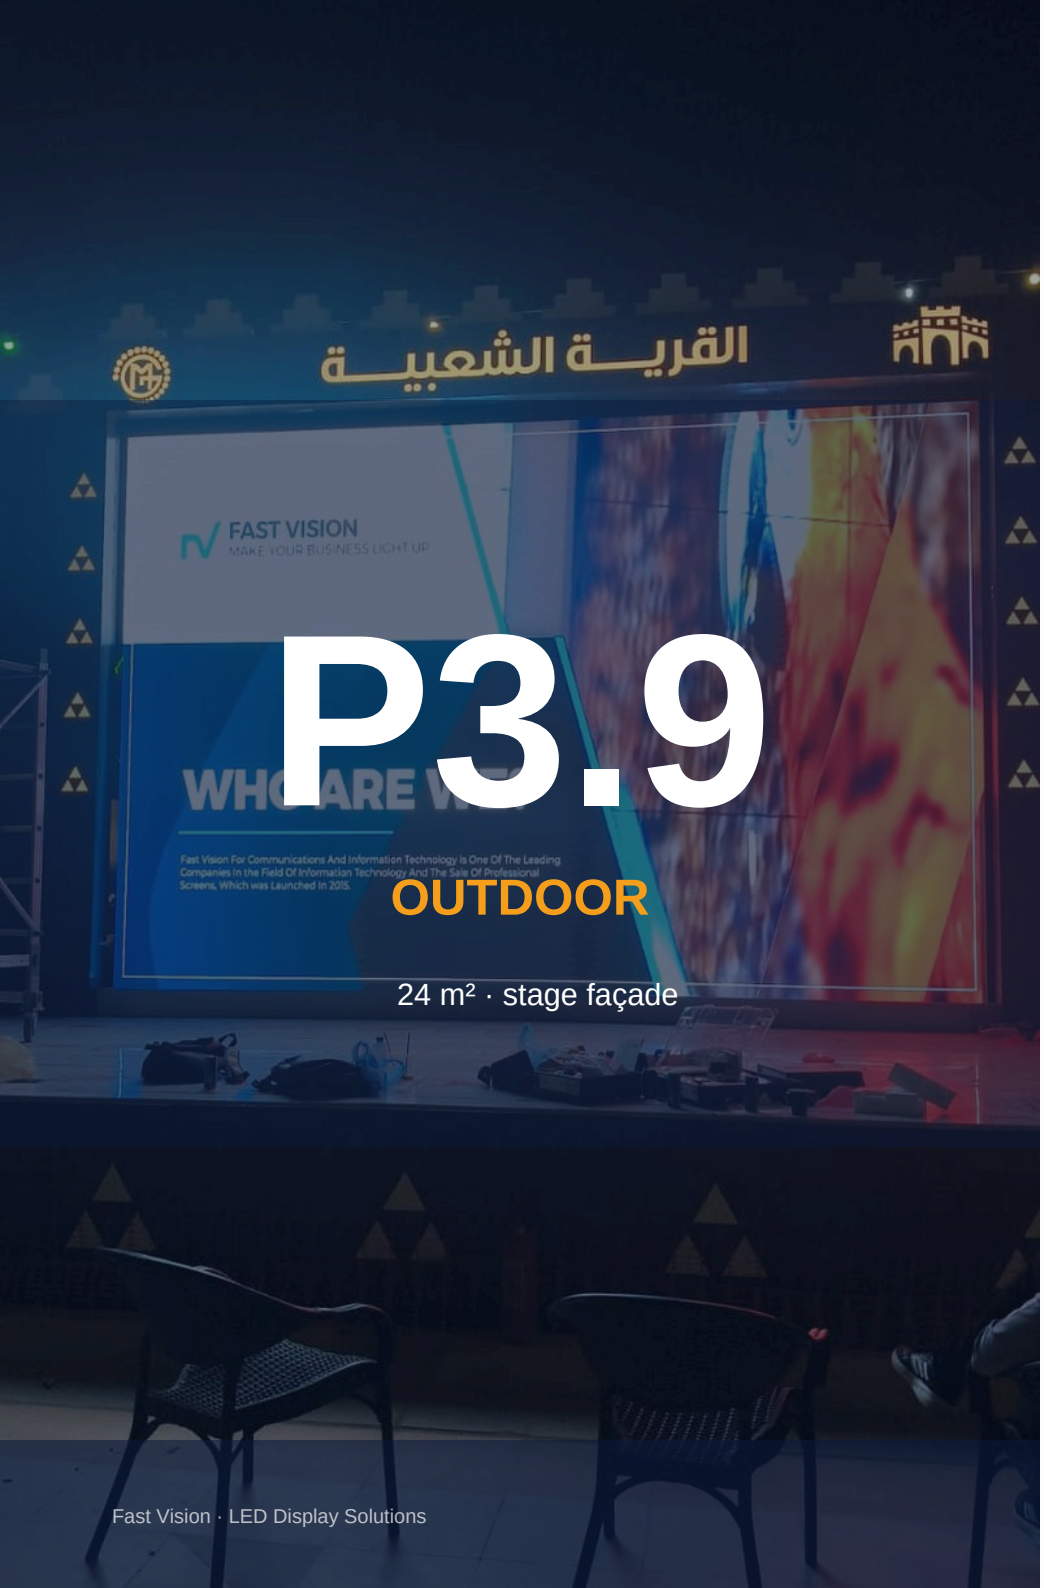

LED backdrops for MBC Group studios

MBC Studio and Al Alamiya Studio · Saudi Arabia

Total area	**50.26 m² · 4 screens**
Largest screen	**7.20 × 3.70 m (27.22 m²)**
Cabinets	**Hikvision DS-D4218FI-CAF · CWF**
Type	**Fine-pitch, built for on-camera use**

The result

- Broadcast backdrops shot directly on camera with no post-processing.
- Each screen calibrated, then all four matched so they agree on camera.
- Sets change by changing content, not by rebuilding the studio.

A 24 m² outdoor LED screen for the Al Qarya Al Shaabia stage

Outdoor LED video wall · Hafar Al Batin

Dimensions	**6.00 × 4.00 m (24 m²)**
Pixel pitch	**P3.9 outdoor**
Resolution	**1536 × 1024 px**
Model	**Hikvision DS-D4239CF-1AAB · 24 cabinets**
Control	**DS-D42B04-N + DS-D60C-B player**
Protection	**9U outdoor rack against dust and heat**

The result

- A steel structure carrying the full screen on a Najdi façade with no concrete backing.
- Reliable in heat, wind and dust without a permanent technician.
- Night shifts to meet a fixed opening date.

LED that sells: from one showroom to 155 branches

Salam Mobile

King Fahd Road, Riyadh

155

branches adopted the flagship specification

Six display environments in one showroom: a two-storey LED column, a service wall, PlayStation zones and 32" touch screens — Hikvision cabinets at two pitches matched to viewing distance, managed centrally in MagicINFO.

Price and offer changes reach the whole network the same day.

TOTO showroom

Riyadh

Indoor LED walls in the main areas on custom steel structures for each position, with digital signage in several sizes and interactive touch displays.

- Colour and brightness calibrated under the showroom's real lighting.
- Central CMS with templates, permissions and training.

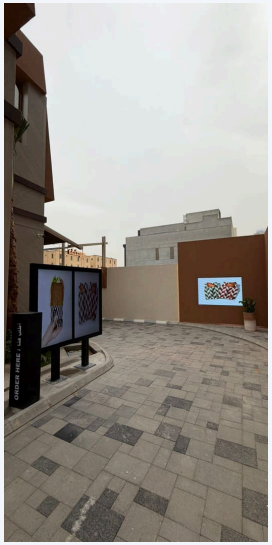

Drive-thru restaurant

Riyadh

A high-brightness outdoor LED wall recessed into the façade, 55" outdoor order-lane displays and a stretch display at the counter — all run from NaVori CMS.

- Fully operational in about one week.
- Real durability test: the screen kept working after a 4×4 vehicle impact.

LED and video walls integrated with audio and control

NHC boardroom

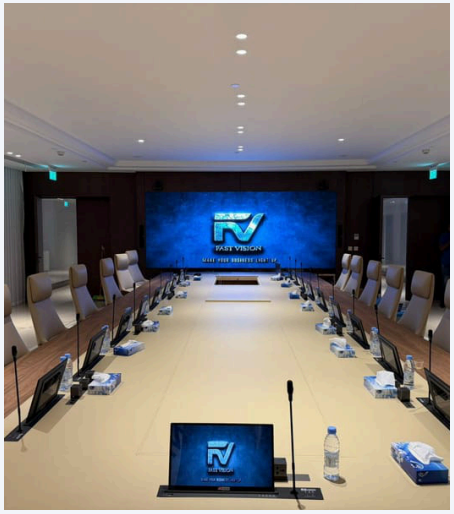

Riyadh · about two weeks

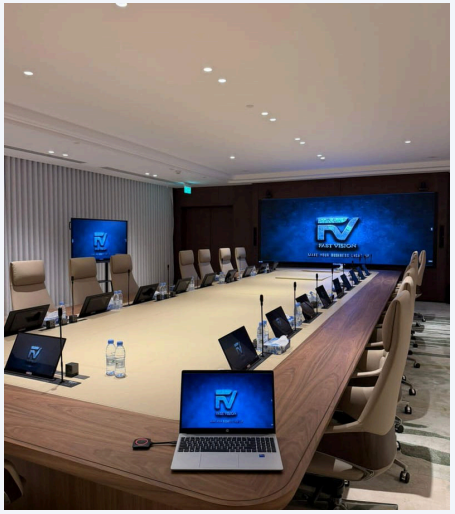

36
fine-pitch LED cabinets

19
delegate seats

Hikvision LED wall, video conferencing, BOSE audio and ClickShare wireless sharing — all from one Crestron panel.

- The client ran the room from the first meeting with no on-site support.

voco Riyadh hotel (IHG)

Riyadh · about one month

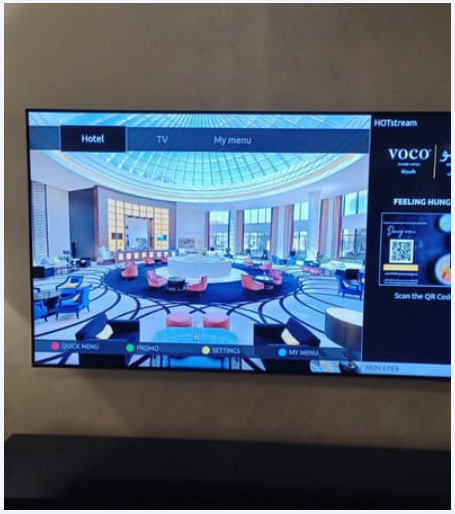

600
rooms with hospitality displays

2
video walls, 4×4 and 3×1

A 4×4 video wall at the entrance and a 3×1 portrait wall in the Rotunda Lounge, four 65" kiosks and a bilingual guest interface — managed centrally in MagicINFO.

- Offers and opening hours update across the hotel within minutes.
